Business Overview

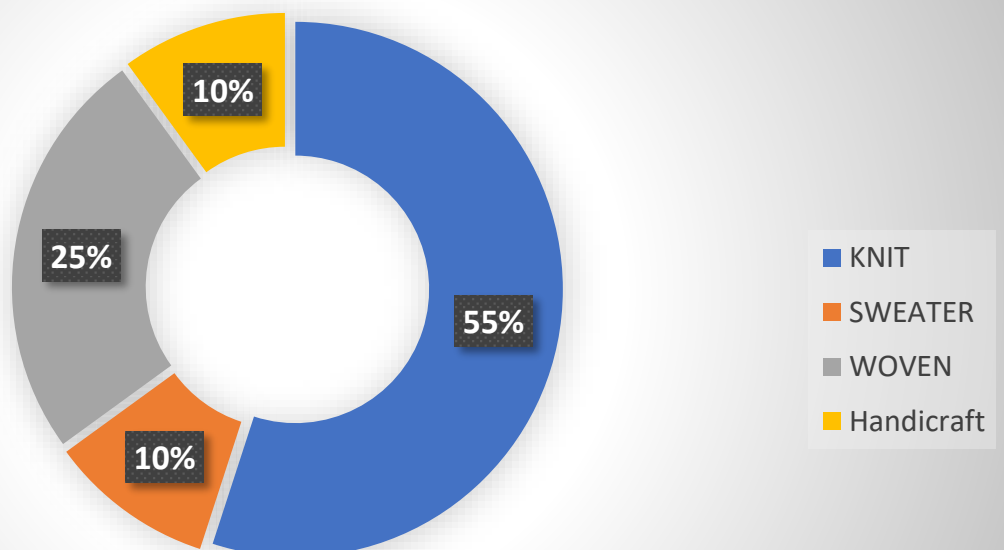

As garments buying house we acts as an intermediary between apparel manufacturers and global retailers, facilitating the procurement of clothing and ensuring that products meet specific requirements. The business involves managing the entire supply chain from sourcing and quality control to production and delivery. Buying houses work closely with manufacturers to ensure that garments adhere to the required standards in terms of design, quality, and compliance with regulations. They play a crucial role in negotiating prices, coordinating logistics, and managing production timelines to align with retailers' needs. Additionally, they are responsible for overseeing the sampling process, conducting factory audits, and ensuring ethical practices within the supply chain. By leveraging their industry expertise and established relationships, buying houses streamline the purchasing process for retailers, helping them navigate complexities and achieve efficiency in their supply chain operations.

OUR BUSINESSES

CATEGORY SPLIT

OUR SERVICES

We offer a comprehensive range of services to streamline the apparel procurement process. They manage supplier sourcing, oversee product development, and ensure quality control throughout the manufacturing process. By coordinating design, sampling, and production, they help retailers and brands secure high-quality garments at competitive prices. Additionally, buying houses handle logistics, compliance, and ethical standards, providing a seamless connection between manufacturers and global markets. Their expertise ensures efficient, reliable, and cost-effective procurement for their clients.

QUALITY MANAGEMENT

We closely monitor orders from the moment of sampling to the time of shipment. We provide updated status on sampling, production and shipment to our buyers on a regular basis. A pro-active approach is maintained towards the identification of problem areas and immediate application of corrective measures to ensure timely delivery of products. The detailed physical inspection of the samples selected at random is based on specifications of the buyers and cover criteria like design / style, shrinkage, accessories, appearance, markings, color, labeling, material, assortments, workmanship, measurements, packing etc.

SAMPLING

We provide samples that are developed to incorporate colors, fabrics and styles based on the requirements of our buyers. We manufacture samples in quantities as required by our customers. By offering this essential service, we sharpen the marketing efforts of our buyers in their region by giving them an edge over their competition.

STATUS REPORTING

Status report is based on multi-state inspection and transmitted to the buyers. The production progress is analyzed in relation to delivery terms and suitable course of action is taken to ensure that goods are delivered in time. Consignments are readied for shipment only if they match up-to the standards required by our buyers.

DOCUMENTATION AND SHIPPING CO ORDINATION

Shipping documents are checked as per the buyer's instruction and the copy documents are sent to buyers well in advance of the shipment to avoid any discrepancies.
